JOB ANNOUNCEMENT

JOB TITLE: Oncologist

CLOSE DATE: Open Until Filled

GENERAL FUNCTION: Provide a patient-centered, collaborative approach to cancer treatment with an integrative model of evidence-based medical oncology.

ESSENTIAL JOB FUNCTIONS:

- Evaluate, diagnose and treat cancer to include chemotherapy, targeted therapy, and immunotherapy.
- Support integrative approaches to cancer treatment such as naturopathic medicine, acupuncture, traditional Native American healing practices, nutrition, and other therapies.
- Develop and monitor patient treatment plans, including treatment options for patients.
- Oversee medical evaluation, diagnosis, and treatment of patients by other medical professionals including midlevel providers.
- Make referrals to appropriate specialists and assure follow-up quality care.
- Provide on-site health education and counseling to patients, their families and staff.
- Participate in Peer review process, utilization review studies and quality improvement committee as assigned.
- Maintain privileges at admitting hospitals.
- Responsible for thorough and timely chart completion.
- Responsible for meeting Meaningful Use requirements.

MINIMUM REQUIREMENTS (EDUCATION AND EXPERIENCE): Doctorate of medicine from an accredited institution. Board certified in Oncology and/or Hematology. Current certification in ACLS/BLS. Must be licensed or able to obtain physician license in the State of Washington. Experience and/or ability to work with and electronic health records system.

TO APPLY: A Salish employment application is required (resume optional). Applications can be found at www.salishcancercenter.com or the Human Resources Department. Completed applications must be submitted to the Human Resources Department by 5:00 pm on the closing date. Positions that are open until filled may close at any time. ***We are an Equal Opportunity Employer while practicing Native preference according to law.***
