History

At Salish Cancer Center, we provide evidence-based and personalized cancer treatments including chemotherapy, targeted therapies, and immunotherapies.

Salish Cancer Center opened its doors in April 2015 to serve the entire surrounding community. Our mission is to provide a transformational journey for everyone touched by cancer. We accomplish this by being compassionate and respectful to the needs of our patients. We strive to have integrity in our work and empower patients in efforts to optimize their health of body, mind, spirit, and surrounding environment.
